

Mono- Print Workshop: Unleash Your Creative Potential

Description:

Discover the captivating world of mono printing in this immersive one-day workshop led by Lori Goldberg.

Morning Session: Begin your journey with an introduction to mono printing and a demonstration of essential techniques. Learn about the simplicity and unique characteristics of monoprinting. Using Gel, and plexi-glass plates we will transfer images of nature and found objects. Dive into layering, impressing, image transfer, and using stencils and masks to craft beautiful and unique prints.

Afternoon Session: Delve deeper into mono printing with experimental methods like direct, transparent, and relief printing.

Workshop Highlights:

- Create a series of one-of-a-kind prints inspired by nature and found objects
- Explore experimental methods for endless creative possibilities
- Experiment with layers, colors, textures, and image transfer techniques
- Learn composition principles and intentional printing approaches.

No prior printmaking experience required; all materials provided

What to Bring:

An apron or wear old clothes.

Any plant materials or magazine images you'd like to try printing.
